

EARTHING

Earth Housing - Light Duty

This Wallis earth housing is manufactured from high-grade heavy duty polypropylene for high strength and stress levels and has a maximum load of 2,000 Kg.

UV stabilised against degradation by sunlight and non-brittle to prevent cold weather damage.

This unique detachable easy locking lid allows easy inspection and ensures security of equipment as the locking mechanism can only be operated by the special key provided.

Its lightweight feature allows easy handling, storage and transportation, thus increasing installation efficiency.

Termination area is increased by 100% by simply locking two units together, allowing deeper earth electrode connections to be made and reducing the effects from harmful voltage gradients.

L	H	D	Lid Colour	Weight	Pack Qty	Part Number
300	200	230	Black	1.50	1	ERH 20
300	200	230	Grey	1.50	1	ERH 21

Material:
Polypropylene Base and Lid.
