25 x 3	bare	70	20	7	0.01	50	MTA 253
25 x 3	PVC	73	20	7	0.01	50	MAP 253

Material:

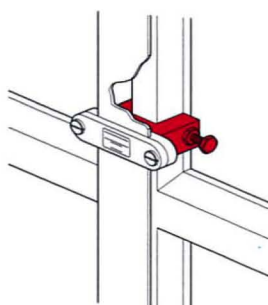

Copper or Aluminium.

Glazing Bar Holdfast

These Wallis holdfasts were originally designed to be used on glazing units but can be used anywhere the conductor has to be fixed onto a narrow flange such as angle iron.

The holdfast has a threaded hole on the back so that the metallic or non metallic DC clips can be attached.

Tape Type	H	L	W	Weight	Pack Qty	Part Number
Copper	35	20	13	0.12	10	HGG 253
Aluminium	35	20	13	0.04	10	HGA 253

Material:

Gunmetal.
